

# FOODMETER

*"Saving food better!"*

# INTRODUCTION

Louis' personal experience with food waste in local supermarkets.

FOODMETER

A photograph of a supermarket fruit aisle. In the foreground, there are large green plastic crates filled with mangoes. Some mangoes are ripe yellow, while others are still green. Behind them, there are more crates of fruit, including what look like oranges and limes. Price signs are visible above the fruit displays.

# PROBLEM

*“Supermarkets are responsible  
for 10% of all U.S. food waste”*

FOODMETER

# SOLUTION

FoodMeter is here to help!

FOODMETER

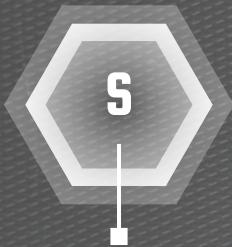

# What is FoodMeter?

With the help of past sales data of foods, FoodMeter can calculate the perfect amount of food shipment for your local grocery store.

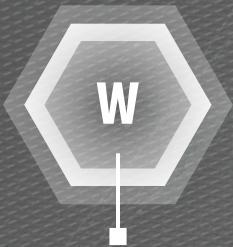

FOODMETER

# SWOT ANALYSIS

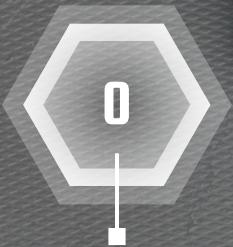

## STRENGTHS

Accurate  
Prediction and
